◆ I am Ill, the seal, is a popular animal in Paradise. I look great every day. However, I suffer from depression because I live in a narrow space with a cylindrical doughnut. Besides, many people would tap the acrylic board and use the flash lamp to take pictures of me. All of these behaviors bring a negative effect on them. Beside me is my friend, Grey. He is a Stingray. He hit the glass one day and his mouth and tail got hurt. There were small fishes nibbling his tail. The saddest thing for us is that Paradise didn't deal with it, but took advantage of us. Finally, what we desire is to have a good environment and treatment. ◆
