### Essay Outline

Title: Changes of Pier-2

#### I. Introduction

##### A. Background:

“Pier-2 Art Center” is one of the famous sightseeing spots in Kaohsiung; however, the buildings were originally used as warehouses to store sugar or fish powder a half century ago.

##### B. Thesis statement:

In order to accomplish our project, we set two goals which are understanding the history of Pier-2 Art Center and promoting the appeals of this place to people, especially locals. (in a complete sentence)

#### II. Body of Development

##### A. Firstly, every member needs to have a thorough knowledge of the background of Pier-2 to be more familiar with this place.

###### 1. We need to search the information as much as we can.

###### a. Searching the internet.

###### 2. We will share the information with our peers.

###### a. Having the meeting every Monday and Friday.

###### b. Discussing any ideas.

##### B. Secondly, we want to make Pier-2 more attractive not only for tourists but also for local people.

###### 1. Many tourists visit Pier-2 while local people seldom go there.

###### a. Pier-2 is known as the famous sightseeing spot.

###### b. Some Taiwanese who live in Kaohsiung have been to Pier-2 only a few times.

###### 2. We need to find a reason why local people do not visit there as much as tourists.

###### a. Having interview

#### III. Conclusion:

In conclusion, we try to keep having good communication with each other as much as we can be familiar with Pier-2. Besides acquiring the knowledge, we want more local people to visit Pier-2.

(paraphrase & summary in complete sentences)

## **I. Introduction**

“Pier-2 Art Center” is one of the famous sightseeing spots in Kaohsiung. It has commercial buildings such as retail shops and restaurants as well as art galleries and small concert venues to amuse visitors from local people to foreign tourists. Surprisingly, the buildings were originally used as warehouses to store sugar or fish powder a half century ago. In 2000, it was discovered by accident and changed into the art center with the help of the government and local artists. We got curious about the story behind it; therefore, we decided to research “Pier-2” as our topic for the final project. Our project was named “Changes of Pier-2” and we will focus on how Pier-2 changed from warehouses into the art center to catch people's attention to the history of Pier-2 as well as introduce the function of Pier-2 now. In order to accomplish our project, we set two goals which are understanding the history of Pier-2 Art Center and promoting the appeals of this place to people, especially locals.

Firstly, every member needs to have a thorough knowledge of the background of Pier-2 to be familiar with this place. If we do not know about Pier-2, we cannot present our project on the final presentation. In order to deepen everyone's knowledge, each of us have been searching about history in detail on the Internet as much as we can. We are planning to meet up to share the information and discuss the project every Monday and Friday. We think it is important to decide or share anything by discussion. Moreover, we will visit Pier-2 on December 6<sup>th</sup> not only to enhance our knowledge and motivation but also to shoot the video to present our project.

Secondly, we want to make Pier-2 more attractive not only for tourists but also for local people. As we mentioned earlier, Pier-2 is known as the famous sightseeing spot. Many tourists visit Pier-2 when they travel to Kaohsiung. However, local people do not go there as much as travelers. We know some Taiwanese friends have been there only a few times even though they live in Kaohsiung for a long time. In order to understand what local people think about Pier-2, we had interviews with locals

when we visited Pier-2 on 6th of December. Based on these interviews, we want to analyze the reasons why local people are not attracted to Pier-2 and think about the proposals later on.

In conclusion, we try to keep having good communication with each other as much as we can be familiar with Pier-2. Besides acquiring the knowledge, we want more local people to visit Pier-2.

## Essay Outline

Title: Changes of Pier-2

### I. Introduction

#### A. Background:

Our group agrees that Pier-2 Art Center has an interesting history behind it. The fact that it has already become the most popular spot in Kaohsiung but not many people know about the history behind it, makes us realize this is the potential of bringing awareness to this specific popular spot in Kaohsiung.

#### B. Thesis Statement:

In order to do that, our group decided to analyze what the visitors want by doing an interview in Pier-2.

### II. Body of Development

A. Firstly, we went to Pier-2 to do an interview to get the idea of what the visitors and also the vendors wanted.

1. To make our goals clearer, we did the interview with the elder, the young generation, and also the vendor.

B. Secondly, after the interview we conclude that the visitors and the vendors want better improvement for Pier-2.

1. More events on the weekdays

### III. Conclusion

In conclusion, during the interviews we noticed that on the weekdays not many people come to Pier-2 because there isn't any interesting activity in Pier-2 according to the interviewees, so we decided to make a proposal to improve Pier-2.

1108211501 陳昇安 Joanne

## II. Target Analysis

Our group agrees that Pier-2 Art Center has an interesting history behind it. The fact that it has already become the most popular spot in Kaohsiung but not many people know about the history behind it, makes us realize this is the potential of bringing awareness to this specific popular spot in Kaohsiung. In order to do that, our group decided to analyze what the visitors want by doing an interview in Pier-2.

Firstly, we went to Pier-2 to do an interview to get the idea of what the visitors and also the vendors wanted. To make our goals clearer, we did the interview with the elder, the young generation, and also the vendor. We made three questions to ask the visitors and the vendors. The first question is “What do you think about Pier-2?”, the second question is “What kind of problem do you think it should be improved?”, and the last question is “What do you expect for the future of Pier-2?”. By asking these questions we expect to gain information about what they care about.

Secondly, after the interview we conclude that the visitors and the vendors want better improvement for Pier-2. According to the results, they wish there will be more events on the weekdays. The visitors said that there aren't any activities to do in Pier-2 on the weekdays, only seeing what is available there. During the interviews, the vendors also mentioned that not many people come to Pier-2 on the weekdays, but only crowded on the weekends. Not only the visitors but also the vendors, they thought more activities on the weekdays could bring entertainment for the visitors. Moreover, we expect it could separate the activities for the weekdays and also the weekends.

In conclusion, during the interviews we noticed that on the weekdays not many people come to Pier-2 because there isn't any interesting activity in Pier-2 according to the interviewees, so we decided to make a proposal to improve Pier-2.

### Essay Outline

Title: Changes of Pier-2

#### I. Introduction

##### A. Background:

Our group defines Pier-2 as an art center, and we can encourage them to hold more activities on weekdays to let more people visit there.

##### B. Thesis statement:

In order to attract more people to visit Pier-2 on weekdays, we make two proposals to improve Pier-2.

#### II. Body of Development

A. Firstly, some hand making shops can offer the discount for university students.

B. Secondly, we recommend Pier-2 to hold different kinds of fairs on weekdays.

#### III. Conclusion:

In conclusion, in order to increase the number of visitors on weekdays, we propose to have discounts for students to some hand making shops. Moreover, we think having the various activities in Pier-2 is a good way to attract more visitors on weekdays. If there is some negative feedback from local people, we are eager to find some solutions to improve our proposals later.

1108200141 歐昕宜 Samantha  
1108212041 呂書妤 Joyce  
1108211501 小椋友子 Tomoko

### III. Proposal

Pier-2 which is regarded as an art center holds a variety of activities on weekends. On the other hand, there are few activities on weekdays; therefore, it is not as lively as on weekends. In order to attract more people to visit Pier-2 on weekdays, we make two proposals to improve Pier-2.

Firstly, we encourage hand making shops to have discounts for students. There are different hand making shops in Pier-2, such as hand making rings, charms, notebooks... and so on. We think that young generations such as university students are interested in hand making. Moreover, they are more likely to be free after school on weekdays. However, most students think that hand making fees are too expensive to try. We expect that students will be more willing to visit hand making shops on weekdays if there are discounts.

Secondly, we recommend Pier-2 to hold different kinds of fairs on weekdays. For example, the cross-cultural fairs will be interesting. We found the association which helps Southeast Asia immigrants called KFI, Kaohsiung Friends of Indonesia Association. KFI can invite people from different countries to participate in this fair to share their own culture such as their traditional clothes, their local dance and so on as well as sell their traditional food. If Pier-2 cooperates with KFI, they will not only improve the weekdays economy but also increase the popularity of exotic culture. We believe this is the best idea to make Pier-2 a better place. Nevertheless, we are not sure how local people react. Therefore, we made a google form to hear their opinions.

In conclusion, in order to increase the number of visitors on weekdays, we propose to have discounts for students to some hand making shops. Moreover, we think having the various activities in Pier-2 is a good way to attract more visitors on weekdays. If there is some negative feedback from local people, we are eager to find some solutions to improve our proposals later.

## Essay Outline

Title: Changes of Pier-2

### I. Introduction

#### A. Background:

Before finishing this project, we decided to reflect on our proposals and attitude throughout this project in order to improve our project. As a result, we found some errors that we neglected.

#### B. Thesis statement:

We want to find solutions to each problem in our proposals as well as our attitude towards this project to complete our project successfully.

### II. Body of development

#### A. First, we found out that our proposals were imperfect with the investigation google form from local people.

##### 1. The fair at night may annoy the neighbors.

- a. Some of them said the fairs at the Pier-2 holds should not be too loud to annoy the neighbors.
- b. Every scale of the fairs should be limited.

##### 2. The fair should not be repeated.

- a. There is an idea that people may be tired of the fairs in Pier-2.
- b. Every week should have a different theme.

##### 3. The elder said that they did not know these kinds of activities.

- a. The elders cannot get the latest information about Pier-2.
- b. Add more flyers on the bulletin board in every village in Kaohsiung.

#### B. Second, we did not have great attitudes toward this project, thus we could not carry out this project as smoothly as we expected.

##### 1. Lack of clear and deep thought

- a. We had to change whole ideas because original ones were not deep enough.
- b. We must come up with ideas with critical thinking on our minds.

##### 2. Lack of communication

- a. Some of us were too shy to speak out.
- b. We must make sure if everyone is on the same page.

### III. Conclusion:

To sum up, through our reflection, we realized that there are some flaws in our proposals to Pier-2. We came up with good solutions to make local people satisfied. Moreover, we try to change our minds to have better communications and think critically to conduct the project smoothly.

1108211501 小椋友子 Tomoko

1108212024 秦靜安 Ann

#### IV.Solution and Results

The project is coming to an end in a few weeks. We have been trying to do our best to develop our project. We went to Pier-2 to observe the environment and had some interviews to get to know what local people thought about Pier-2. As a result, the problems were revealed. We came up with good proposals such as having some fairs on weekdays to attract more visitors. Before finishing this project, we decided to reflect on our proposals and attitude throughout this project in order to improve our project. Therefore, we found some errors that we had neglected. Here we reflect on solutions to each problem in our proposals as well as our skills to complete our project successfully.

First, we found our errors of the proposal through the google form from the locals, and luckily, we invited people of different ages who filled out our form. Here came three main problems in our proposal:

1. The locals said the little market shouldn't be too loud to annoy the neighbors.
2. The people may soon be tired of the little markets.
3. The elder can't get the latest news of the shops in Pier-2.

The issues above may cause the protest from the neighborhood and in this way the little markets on the weekdays may be suspended. However, we have to deal with these problems.

We came up with these solutions:

1. Every scale of the market should be limited.
2. Every week should have a different theme.
3. Add more flyers on the bulletin boards in every village in Kaohsiung.

In the first solution, if we confine the scale of the fair, and decrease the number of people in it, then, the neighbors won't be greatly impacted. The second is that we should have multiple themes of the little market to attract people such as a culture exchange market, a hand making market and so on. Therefore, the visitors won't be tired of it very soon. The last one indicated the way to spread the news of the Pier-2 for the elderly. We should advocate the news in many ways not only to one age group but also groups of various ages. For example, adding more flyers on the bulletin boards in every village in Kaohsiung.

Second, we did not have enough skills to work on this project. Thus, we could not carry out this project as smoothly as we expected. For example, our thoughts were not deep and clear enough. As the project went on, we realized we could not come up with further ideas. Hence, we had to give up original ideas and took time to rethink. In order to avoid wasting our time, we needed to develop our ideas with critical thinking in our minds. Besides critical thinking, the most crucial problems we encountered was lack of communication. Some of our members were too shy to express their ideas or even to ask others some questions when they did not understand what we decided. As some did not have any opposing opinions or further questions, the rest assumed that everyone understood and agreed with those ideas. Therefore, we made some misunderstandings in our group without even noticing. We had to confirm if everyone was on the same page for every discussion.

To sum up, through our reflection, we realized that there were some flaws in our proposals to Pier-2. We came up with revisions to make local people satisfied. After we finish our new proposal, we will open another google form to see the reflection from the locals. Moreover, we try to change our minds to have better communication and think critically to conduct the project smoothly.

## VI. Presentation file

## VI. Presentation file

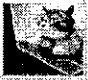

### Solutions

- 1. To offer discounts to university students.
- 2. To hold different kinds of fairs on weekdays.

### Problems

- 1. Fairs may be so loud as to annoy the neighbors.
- 2. People may get bored with the same or repeated fairs.
- 3. The elders can't get the latest news of Pier-2 events.

### Solutions

- 1. Limit the of every fair
- 2. Have different themes for fairs
- 3. Add more flyers on the bulletin board in every village

### Conclusion

- 1. Pier-2 is a remarkable sightseeing spot with an interesting background.
- 2. Pier-2 has potential for better use of the space to invite more people on weekdays.
